

FCC:

Don't end restrictions. Don't let "big money" buy up all our local TV stations and newspapers. Allowing them to do so would endanger our country's democracy. "Big money" (ie. Fox, GE, Viacom, etc.) corporations should not be allowed to control the mass media and manipulate it to their marketing advantage.

We need to preserve freedom of speech by letting all voices be heard. It is up to our government to protect the rights of the public. You must not allow those who believe that ownership and manipulation of mass media is a surefire means of increasing their bottom line to control our intake of information and our ability to express facts, information, opinion, and creativity.

Mass media is a powerful tool for developing education, culture, and the sharing of ideas. The corporate media is incapable of providing a higher world of thought and information because they strive to stimulate humanities most base attributes like, fear, lust, greed. Don't let greedy corporations control or obliterate what is inherently positive about our media.

Monitor "Big Money," they are the true destroyers of democracy. There's no such thing as a democratic corporation where big money is concerned. Letting them buy out our media only serves their purposes and does nothing to protect the general public.

The purpose of all forms of media is to allow EVERYONE a "voice in the wilderness."

Sincerely,  
Bridget Maureen Borer
